# Welcome to Dublin

Dear Industry Partners and supporters,

We are delighted to invite you to participate in the 9th Europaediatrics Congress in Dublin, 13-15th June 2019 and welcome you with a céad míle fáilte which in Irish means 100,000 welcomes.

Europaediatrics is a biennial congress for all general paediatricians and paediatric sub-specialists in Europe. It is the major scientific event of the European Paediatric Association and the Union of National European Paediatric Societies and Association (EPA-UNEPSA). EPA-UNEPSA represents all of the countries in Europe, with over 50 National European Paediatric Societies and Associations operating to promote child health and enhance paediatric care in Europe and internationally.

This meeting will take place in Dublin, Ireland and will be hosted by the Faculty of Paediatrics of the Royal College of Physicians of Ireland. The theme of the meeting is *“prevention and therapeutic innovations in child health”*. The meeting will be held in the iconic Convention Centre Dublin in the heart of the city, close to the Royal College of Physicians of Ireland and the historic Trinity College.

The previous Europaediatric congress in Bucharest was a tremendous success and we expect over 2000 participants in Dublin in 2019. This event provides an ideal platform for communication between healthcare providers, researchers, innovators and providers of products and services related to the field.

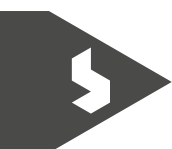

We invite your participation and offer you numerous opportunities to expose your company and its products and services to leading paediatricians and related professionals. You will find many options and further information in this sponsorship prospectus.

We look forward to an efficient and fruitful co-operation with you and welcoming you to Dublin in 2019

**Prof Hilary Hoey**  
Chairman Scientific and  
Organising Committee

**Dr Ellen Crushell**  
President  
9thEuropaediatrics

**Prof Leyla Namazova Baronova**  
President EPA/UNEPSA

managed by  
**bioscientifica**

# Why attend Europaediatrics Congress 2019?

- Unrivalled access to over 2,000 paediatric professionals
- Delivering key messages to a highly influential audience
- Brand alignment with key disease, therapeutic area or speciality
- Position yourself as an industry leader in paediatrics
- Specific catering breaks held in the exhibition area for dedicated time with delegates
- Benefit from Congress publicity through local and international media
